MEETINGS AND REVIEWS

The **meetings** are focused on managing the work that is conducted—resolving impediments in the process and ensuring that the outcomes meet customer expectations.

The **reviews** are assessments of the performance of the system, or the system of systems, whose objective is to identify opportunities for improvement.

IMPORTANT!

Do not add immediately new meetings to the already existing ones in an organization.

Find out how the topics addressed in the Kanban cadences fit best into your organization.
